EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Cancel the non-elected claims 1-12,23-26 and 30-31. Election was made without traverse of dated 1/26/06.

2. The following is an examiner's statement of reasons for allowance: Applicant's argument is persuasive as to the point that the cited prior art fail to teach a plurality of second temperature controllers disposed in thermal communication with the plasma chamber wall adjacent to the plurality of the first temperature controllers and comprising thermo electronic device as the context of claim 13.

3. The prior art also does not teach a plasma chamber having a plurality of thermocouple device disposed between the temperature-controlling block and the chamber wall as the context of claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
